Weight: 0.00kg
Dimensions: 0.00cm x 0.00cm x 0.00cm

Short Description

Jumpstart your career in pharmacy and become a Pharmacy Technician!

Description

Accelerate Your Future at SoCal ROC!

The Pharmacy Technician program prepares students for employment as a Pharmacy Technician and provides a solid foundation for a career in pharmacy. Students will learn Pharmacokinetics and Pharmacodynamics to help assist patients with diagnosis and diseases.

Learn Valuable Industry Skills!

Beginning with the history of the field of pharmacy work and pharmacology, the course will emphasize appropriate medical terminology, anatomy and physiology, math as related to filling prescriptions, and drugs as related to body systems. How to accept prescriptions for filling, gather and process necessary information, calculate anticipated drug dosages, and compound, package, and label pharmaceutical products under the direction of the pharmacist will be covered. Students will learn operations of pharmaceutical machinery and how to maintain and clean equipment, work areas and shelves. Students will acquire the skills to perform clerical tasks, prepare prescription labels, process pharmacy medical insurance claims and learn to receive, store, and inventory pharmaceutical supplies.

- **Professional Certification Opportunities!**
-

Designations offered to students completing the Pharmacy Technician course include

1. A Certificate of Competency with eligibility to apply for pharmacy board state license
2. CPR/BLS (Basic Life Support) certification
3. Working in the patient care system through an externship and job opportunities
